Course Match Overview

Course Match is an advanced algorithm that assigns classes based on your preferences. The algorithm uses the rankings submitted by you and your classmates to determine the demand for every class. Using that information, it gives you as many of your highly ranked classes as it can. The algorithm was created by Cognomos, based on Nobel prize winning research in economics, and is employed at several peer institutions. For those interested in [the details](#), the Course Match algorithm is a direct application of market design theory.

Launch Your Startup

[View All Courses](#)

Launch Your Startup focuses on the evaluation, development and potential launch of a new business. Working individually (or on occasion in pairs), students spend the entire term developing an effective and comprehensive presentation of a real business concept by addressing five key issues: in-depth market analysis, product or service design, development of a marketing campaign, assessment of human resource requirements and building a realistic financial forecast. The output will be a comprehensive business plan and a formal presentation of their idea.

Elective Selection

Elective selection for the Fall 2026 term takes place **June 17 – June 24** using a system called **Course Match**.

Course Match is an advanced algorithm that assigns classes based on your preferences. The algorithm uses the rankings submitted by you and your classmates to determine the demand for every class. Using that information, it gives you as many of your highly ranked classes at the end of the selection period. Course Match is not a first-come, first-served system, and you'll receive your final elective registration in mid April.

The algorithm is a direct application of market design theory. If you are interested in the details, the publication of the study can be found via this link:

Course Match Information

Note: You may see this screen when accessing Course Match for the first time. If so, please follow the steps below to access Course Match

- 1) Click the link in the paragraph above OK
- 2) You will be redirected to Vergil, wait a moment for a pop-up.
- 3) Review and agree to the financial responsibility statement.
- 4) Once you have submitted, please return to the Course Match screen. Hit "OK"
- 5) The page will refresh and you will now see a button that says "**CBS Fall 2026**"-click there to enter Course Match

Elective Selection

Course Match is accessed via <https://coursematch.gsb.columbia.edu/>

After logging in, the first step will be deciding the minimum number of credits you wish to enroll in and the target credit value. You will be able to enroll in up to **15 credits** through the Course Match ranking process. (up to 12 credits for those enrolled in the Cape Town, Buenos Aires, and Munich International Seminars)

The screenshot shows a five-step process bar at the top: GET STARTED (active), FIND CLASSES, RANK CLASSES, REVIEW SCHEDULES, and CONFIRM. Below the bar, the question 'How many credits do you need?' is followed by a 'NEXT: FIND CLASSES' button. A text block explains that users can adjust minimum and target credit values, with a note that the target cannot exceed the maximum allowed (15 credits). At the bottom, there are two input fields: 'Minimum' with the value '1.5' and 'Target' with the value '9'. A 'SAVE' button is located at the bottom left.

GET STARTED → FIND CLASSES → RANK CLASSES → REVIEW SCHEDULES → CONFIRM

How many credits do you need?

NEXT: FIND CLASSES

You will be able to adjust your minimum and target credit values on this screen. The target credit amount you are presented with is the maximum number you will be able to rank. You can reduce this amount, if necessary, but you should not set a value greater than the value initially displayed. If you do, the amount will be reverted to the maximum amount allowed before seats are allocated.

1.5 Minimum 9 Target

SAVE

- **Minimum credits:** minimum credits you wish to be enrolled in
- **Maximum credits:** maximum number of credits you will be assigned determines how many credits to rank (capped at 15 credits)

SUBMIT RANKINGS

Rankings not yet saved

You must submit your rankings for them to be saved

Rank the classes you chose according to your interest. The higher up you place a class, the harder the system will work to assign you that class. The first class on your list should be your favorite class, descending from there. The different sections (favorite; great; good; acceptable) are for distinct differentiation between classes, while the ranking within each section is for smaller adjustments and preferences between them. You do not have to place classes in every section. In some cases, you may wish to enroll in only one of a group of classes, even if you have ranked them all highly. Communicate this to Course Match using the Rules feature at the very bottom of the page. A rule is a list of classes that says how many of those classes you would like to take – as few as one and as many as three.

After adding your classes, you will then rank them in order of importance. You can add them to the following buckets: Favorite, Great, Good, Acceptable.

You can only rank one Favorite. The other buckets have no restrictions.

Note: Placing a course as your Favorite does not guarantee a seat in the course

Elective Selection

The next step is to review potential schedules that course match may give.

Please keep in mind that if there is a greater demand than available seats for your top pick classes, you may receive a schedule not in the potential schedules.

The last step is to hit confirm and you are all done. You can go back and make changes and confirm again, until the selection round ends.

MBA Electives Add/Drop Deadlines

Full-Time MBA Courses							
IMPORTANT NOTES ON FULL-TIME ELECTIVES: MBA electives may conflict with EMBA block weeks, and often times this means students must choose to either take EMBA/MBA Block Weeks or MBA daytime courses. Students are responsible for checking the course schedule in Course Match for any pre/co-requisites and ensuring there is not a conflict between MBA and EMBA electives. For information on MBA auditing, please contact the professor directly for permission and then check with
